		<p>The Executive</p>	<p>I. Answer the following questions</p>	<p>https://youtu.be/epanI1m0WCw</p>

			<p>1. Mention any five powers of the Prime Minister .</p> <p>2. Mention the legislative powers of the President.</p> <p>3. Who appoints the ministers? Mention any four functions of the Council of Ministers.</p> <p>4. Write any two judicial and two financial powers of the President.</p> <p>5. Who are the members of the Union Executive?</p> <p>6. Mention the qualifications required for the Presidential Election.</p> <p>7. How is the President of India elected?</p> <p>8. How many categories of ministers are there? Name them.</p> <p>9. When can the President declare emergency?</p> <p>10. Write any three functions of the Council of Ministers.</p> <p>Note:</p> <p>*The above questions to be done in the notebook.</p> <p>* Learn all the key terms of the chapter given in book.</p> <p>II. Exercises(Page no. 144)</p> <p>A. Fill in the blanks</p> <p>B. Match the following</p> <p>c. Write True and False</p> <p>Note: Exercise A,B and C to be done in the textbook.</p>	
	GEOGRAPHY	Asia	<p><u>I.Name the following: -(page no. 46,47and 48)</u></p> <p>a. The lowest point in Asia.</p> <p>b. The pacific edge that has a number of volcanoes.</p> <p>c. The highest peak in Asia.</p> <p>d. The wettest place that receives 11,43 cm annual rainfall.</p> <p>e. The deepest lake in Asia.</p> <p><u>II. Write the capitals of the following countries.(page no.46,47 and 48)</u></p> <p>a. Israel</p> <p>b. Laos</p> <p>c. Mongolia</p>	https://youtu.be/cekU_MvrkEs

			<p>d. Nepal e. India f. Sri Lanka g. Vietnam h. Philippines i. Thailand j. Yemen</p> <p>III. Answer the following Questions.(page no. 46,47 and 48)</p> <p>a. Mention the major physical division of Asia. b. Asian countries have been grouped into seven divisions. Mention the seven divisions. c. Name any three river valleys in Asia. d. Which two countries share the water of River Indus? e. Which two rivers form the largest delta of the world? f. Mention any one feature of the plateaus found in the southern regions of Asia.</p> <p>Note: All the above exercises to be done in the notebook.</p>	
	PHYSICS	Moment of Force, Unit of Moment of Force	<p>1) Define the term moment of force. 2) State the S.I unit of moment of force. 3) Write the expression for the moment of force about a given axis of Rotation. 4) State one way to decrease the moment of a given force about a given axis of rotation . 5) State one way to obtain greater moment of a given force about a given axis of rotation 6) What do you mean by the clockwise and Anticlockwise moment of force. 7) Explain the following : a) The spanner(or wrench) has long handle. b) The steering wheel of a vehicle is of large diameter. c) The hand flour grinder is provided with a handle near rim. d) It is easy to open the door by pushing it at its free end.</p>	
		Thrust, Effect of Thrust	<p>1) What is thrust? State the unit of thrust .</p>	

		Pressure , Unit of Pressure	<p>2) On what factors does the effects of thrust on a surface depends ?</p> <p>3) Define the term “Pressure” and state its unit .</p> <p>4) How is the thrust related to pressure ?</p>	
	CHEMISTRY	Physical & Chemical Changes	<p>1) Define:</p> <p>a) Physical Change</p> <p>b) Chemical Change</p> <p>2) Enlist the characteristics of-</p> <p>a) Physical Change</p> <p>b) Chemical Change</p> <p>3) Fill in the blanks:-</p> <p>a) All changes can be broadly classified as _____ and _____ .</p> <p>b) The changes that takes longer time to complete are called as _____.</p> <p>c) Changes that takes place in Nature by its own are called _____ .</p> <p>d) _____ changes are repeated at regular intervals.</p> <p>e) Reversible changes can be reversed by changing the ____.</p> <p>4) Classify the following as Physical or a Chemical Change.</p> <p>a) Cutting of nails</p> <p>b) Boiling of potatoes.</p> <p>c) Lightening of an electric bulb.</p> <p>d) Rotting of fruits and vegetables.</p> <p>e) Bursting of crackers.</p> <p>f) Manufacturing of steel.</p> <p>g) Melting of butter.</p> <p>h) Formation of dew.</p> <p>i) Breaking of Jam bottle.</p> <p>j) Digestion of food.</p> <p>k) Rusting of iron.</p> <p>l) Burning of fuels</p> <p>m) Sublimation of naphthalene balls.</p> <p>n) Baking of a cake.</p> <p>5) Differentiate between:-</p>	https://youtu.be/DqetGRh66vU

			<p>a) Slow & Fast Change. b) Natural & Man-made Change. c) Periodic & Non- Periodic Change. d) Reversible & Non-Reversible Change.</p>	
	BIOLOGY	Circulatory System	<p>N.B. All the assignments have to be done in the copy. 15.6.20 <u>Module 1:</u> Topic - Introduction, Fluids in our body, vascular system of the body Q1. What is the circulatory system comprised of? Q2. What are the three principal fluids in our body? Where are these fluids found in the human body? Q3. What are the two main vascular system of the body? Give the difference between them. Q4. Draw the diagrammatic representation of blood and lymph circulation and label the diagram.</p>	https://youtu.be/ GinTV94hUk
			<p>17.6.20 <u>Module 2:</u> Topic: Heart- The pumping organ Q1. Name the following: i. The protective covering of the heart. ii. The chamber of the heart that receive the blood iii. The lower chamber of the heart iv. The valve present between the right auricle and right ventricle. v. The largest artery vi. The blood vessel that carries blood from the heart to the lungs. Q2. Give the location of: i. Bicuspid valve ii. SA node Q3. Give reason: i. The walls of the ventricle is thicker than the walls of the auricles.</p>	https://youtu.be/ qmNCJxpsr0
			20.6.20	https://youtu.be/TIi4tRYOP70

			<p><u>Module 3.</u> Topic-Blood vessels Q 1. What are three major types of blood vessels in our body? Q2. What are the blood vessels that bring the blood to the auricles? Q3. Give the differences between: i. Artery and vein ii. Pulmonary artery and pulmonary vein. iii. Coronary artery and coronary vein.</p>	
			<p>22.6.20 <u>Module 4.</u> Topic- Blood Circulation Q1. Explain double circulation. Q2. Fill in the blanks: i. The deoxygenated blood from the different parts of the body is received in the _____. ii. The valves in between the auricles and ventricles are together known as _____ valve. iii. When the atrio-ventricular valve closes the _____ valves open. iv. The right part of the heart receives _____ blood whereas the left part of the heart receives the _____ blood. v. The carbon-dioxide loaded blood from the right ventricle is pumped into the lungs through _____ artery. vi. Pulmonary veins carry _____ blood.</p>	<p>https://youtu.be/CWFyxn0qDEU</p>
			<p>24.6.20 <u>Module 5.</u> Topic – Tissue fluid, Lymph, Blood groups Q1. Name the lymphatic organs. Q2. Mention any two functions of lymph. Q3. Give any two differences between blood and lymph. Q4. What are the four blood groups in humans? Q5. Correct the sentences by changing the underlined word.</p>	<p>https://youtu.be/CTcnQ3a45KA https://youtu.be/H6w-BRSgfMg</p>

			<p>i. The cellular part of the lymph is <u>erythrocyte</u>.</p> <p>ii. A person with <u>B type</u> blood group is an universal donor.</p> <p>iii. The universal recipient is the <u>A type</u> blood group.</p> <p>iv. The AB type blood group has the <u>antigen B</u>.</p> <p>v. The blood of B group can be given to a person with <u>A and AB</u> group.</p>	
			<p>27.6.20</p> <p><u>Module 6.</u></p> <p>Topic – Heart –related conditions, Keeping Heart Healthy</p> <p>Q1. Define:</p> <p>i. Hypertension ii. Cardiac arrest</p> <p>Q2. How will you differentiate heart attack and cardiac arrest.</p> <p>Q3. Mention any four ways to keep your heart healthy.</p>	<p>https://youtu.be/3_PYnWVoUzM</p> <p>https://youtu.be/le7IupNVPqs</p>
	COMPUTER	Algorithm and Flowcharts	<p>Q1. Fill in the blanks:</p> <p>i. An _____ is a set of instructions written step-by-step sequentially for performing any task.</p> <p>ii. _____ symbol is used to represent input/output.</p> <p>iii. An _____ is use to represent the flow of movement of the processing in a flow chart..</p> <p>iv. The _____ symbol used to show a jump from one point in the process flow to another.</p> <p>v. The first step towards building a good algorithms is to have a clear _____ description</p> <p>Q2. State True or False:</p> <p>i. You can draw a flowchart and give it to computer for processing</p> <p>ii. Algorithm is a diagrammatic procedure to solving programming</p> <p>iii. A rhombus like shape is used to take decisions</p> <p>iv. To develop an algorithm 7 step problem solving method we follow</p> <p>vi. It is easy to show branching and looping in an algorithm.</p> <p>Q3. Answer the following questions:</p> <p>1. Write any four characteristics of algorithm?</p> <p>Write five step problem solving method how to write algorithm.</p>	<p>https://youtu.be/lwzzWOTHIQg</p>

			<p>Q4. Write an algorithm to input 2 numbers and find their sum and difference.</p> <p>Q5. Write an algorithm to input name and address and print them.</p>
